MFSPC-S “**TRIDENT**” is a system developed through many years of professional experience in combat environments and the production of individual combat equipment. MFSPC-S is the leading personal equipment system in the Latvian military industry.

By conducting an international analysis in the context of world events, constructors of MFSPC-S have considered essential aspects of developing MFSPC-S for military personnel (ground infantry, mechanized infantry, scouts, SOF units, and other military and law enforcement units) which require the most functional, safe, high-quality equipment for their operating environment and specific needs for military applications by the requirements of the 21st century.

It is essential to provide each operator with the most suitable individual protective equipment according to the requirements of the modern battlefield to increase the operators’ performance and functionality (comfort, level of protection, mobility, versatile use, ability to adapt equipment, camouflage ability). MFSPC-S is designed to meet those requirements.

The unit may have various specialists with different missions and required equipment and weapons. Creating conditions for successful operator performance requires ensuring that all prerequisites are met for successful completion of assigned missions, operators’ survivability must be considered as one of the primary conditions on the battlefield. The more functional and mobile operators are, the more effective their combat capabilities are.

To ensure maximum performance during assigned missions, it is crucial to create conditions that consider the physiological characteristics of operators (left-handed or right-handed).

Changing tasks and variable external conditions, like geographical environment, seasons, weather, has placed significant focus on the modularity of the MFSPC-S to ensure the compatibility of all components and the possibility to adapt each combat unit and every operator, while maintaining optimal performance. The possibility of replacing different MFSPC-S elements easily simplifies equipment logistics, repair, and service.

An additional list of compatible accessories is included in the catalog. The MFSPC-S is extended by means of accessories that can be ordered separately, which allows the most suitable equipment for the specific unit to choose the exemplary configuration. MFSPC-S Plate Carrier covers are available in three basic designs (low profile, SOF, and regular Army version). The MFSPC-S system contains these components, and they can be ordered as additional components.

MFSPC-S configurations are suitable for scouts, JTAC, SOF, and other specialists not regularly on the front lines in direct contact with the enemy and for whom increased mobility capabilities are critical.

ICW and Stand-Alone hard armor plates and soft armor panels are compatible with MFSPC-S.

**It is the right time to have the best and right individual equipment for the best operators to execute the most complex military applications.**

## 2. GENERAL VIEW OF MFSPC-S "TRIDENT" LAND

### 3. MFSPC-S “TRIDENT” LAND COMPONENTS

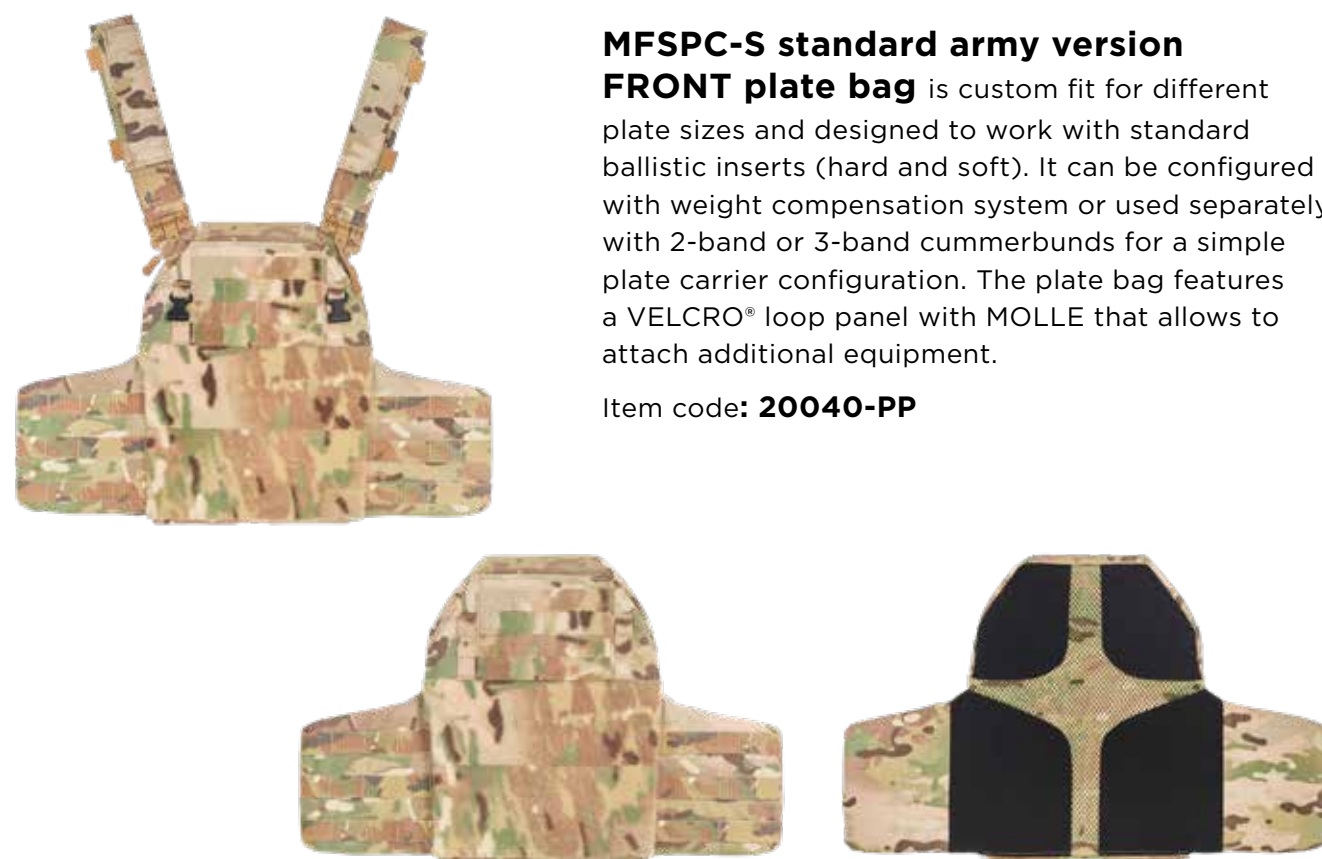

**MFSPC-S SOF version FRONT plate bag** with quick-release cable (cutaway). Standard plate bag is custom fit for different plate sizes and designed to work with standard ballistic inserts (hard and soft). It can be configured with weight compensation system or used separately with 2-band or 3-band cummerbunds for a simple plate carrier configuration. The plate bag features a VELCRO® loop panel with MOLLE that allows to attach additional equipment.

Item code: **20039-PP**

**MFSPC-S standard army version FRONT plate bag** is custom fit for different plate sizes and designed to work with standard ballistic inserts (hard and soft). It can be configured with weight compensation system or used separately with 2-band or 3-band cummerbunds for a simple plate carrier configuration. The plate bag features a VELCRO® loop panel with MOLLE that allows to attach additional equipment.

Item code: **20040-PP**

### 3. MFSPC-S “TRIDENT” LAND COMPONENTS

**MFSPC-S standard REAR plate bag** is custom fit for all MFSPC-S front plate bags and available for different plate sizes and designed to work with standard ballistic (hard and soft) inserts. It can be configured with weight compensation system or used separately with 2-band or 3-band cummerbunds for a simple plate carrier configuration. The plate bag features a VELCRO® loop panel with MOLLE that allows to attach additional equipment.

Item code: **20039-MP**

**MFSPC-S adapter** for military applications where a rear armor plate is unnecessary, such as full equipment patrolling or Military Free Fall operations. It allows the operator to have more options with MFSPC-S for different missions.

Item code: **20039-MP-N9**

**MFSPC-S weight compensation system, shoulder harness (Angel wings).**

Item code: **60014**

### 3. MFSPC-S “TRIDENT” LAND COMPONENTS

**MFSPC-S adjustable shoulder straps** are designed for the MFSPC-S SOF version front plate bag. Straps come with a quick-release cable (cutaway system). Shoulder straps have G-hooks built in as an emergency strap attachment system to the plate carrier. We recommend using straps in conjunction with ANGEL WINGS (item code: 60014).

Item code: **20039-PL-AIR**

#### **MFSPC-S classic adjustable shoulder straps**

are designed for MFSPC-S standard army version front plate bag. Shoulder straps have G-hooks as the primary attachment system to the plate bag. We recommend using straps in conjunction with ANGEL WINGS (item code: 60014).

Item code: **20039-PL-GH**

#### **MFSPC-S classic adjustable shoulder straps**

with quick-release system tubes designed for MFSPC-S standard army version front plate bag. Shoulder straps have G-hooks as the primary attachment system to the plate bag. We recommend using straps in conjunction with ANGEL WINGS (item code: 60014).

Item code: **20039-PL-QR**

#### **MFSPC-S classic shoulder pads**

for shoulder straps. Shoulder pads are designed to improve operators' comfort and accommodate cables and water system. Main material: 500D CORDURA®.

Item code: **20039-PC**

### 3. MFSPC-S “TRIDENT” LAND COMPONENTS

#### **MFSPC-S three-band cummerbund**

with VELCRO® attachments on both ends. Suitable for different plate carriers.

Sizes: S/M; L; XL/XXL

Item code: **50026**

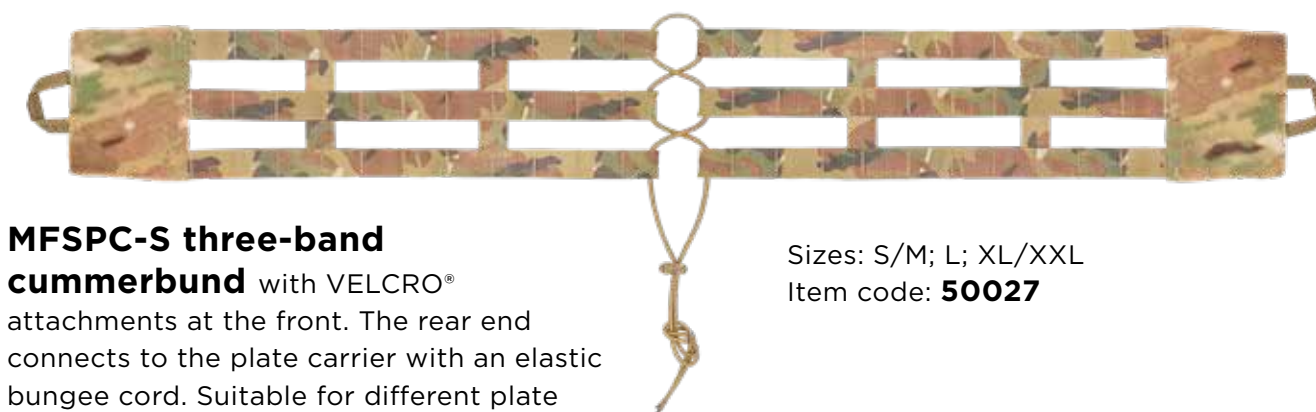

#### **MFSPC-S three-band cummerbund**

with quick-release tubes and VELCRO® attachments on both ends. Suitable for different plate carriers.

Sizes: S/M; L; XL/XXL

Item code: **50033**

#### **MFSPC-S three-band cummerbund**

with VELCRO® attachments at the front. The rear end connects to the plate carrier with an elastic bungee cord. Suitable for different plate carriers.

Sizes: S/M; L; XL/XXL

Item code: **50027**

#### **MFSPC-S three-band cummerbund**

with quick-release buckles and VELCRO® attachments at the front. The rear end connects to the plate carrier with an elastic bungee cord. Suitable for different plate carriers.

Sizes: S/M; L; XL/XXL

Item code: **50023**

#### 4. MFSPC-S “TRIDENT” LAND PLACARDS

##### MFSPC-S tactical MOLLE slick placard

is designed to accommodate different magazine pouches (MP-5 and 7, M-4, G-36, HK-417, M-110, and AK). MOLLE system allows to attach additional pouches and equipment for different military applications as necessary. Placard can be used as frontal or rear, constructed to ease the operator's functionality.

Item code: **20039-N1**

**MFSPC-S LAND tactical M-4 magazine placard** is designed to accommodate three M-4 magazines (accommodates any 5.56 style magazines and AK style magazines). Placard can be used as frontal or rear, constructed to ease the operator's functionality.

Item code: **20039-N2**

##### MFSPC-S LAND tactical M-4 magazine placard

is designed to accommodate three M-4 magazines (accommodates any 5.56 style magazines and AK style magazines). Magazines are secured with VELCRO® flaps. Placard can be used as frontal or rear, constructed to ease the operator's functionality.

Item code: **20039-N3**

#### 4. MFSPC-S “TRIDENT” LAND PLACARDS

##### MFSPC-S LAND tactical 7.62 magazine placard

is designed to accommodate two 7.62 magazines and one pistol magazine. Placard can be used as frontal or rear, constructed to ease the operator's functionality.

Item code: **20039-N17**

##### MFSPC-S LAND tactical 7.62 magazine placard

is designed to accommodate three 7.62 magazines. Placard can be used as frontal or rear, constructed to ease the operator's functionality.

Item code: **20039-N19**

##### MFSPC-S tactical magazine placard with integrated admin pouch

is designed to accommodate three M-4 magazines or AK style magazines, two 7.62 magazines and two sniper rifle magazines .308; .338 (accommodates any 5.56 and AK style magazines or any 7.62 magazines, as well any .308 and .338 sniper rifle magazines). Three magazine adapters are available to accommodate proper-style magazines. Placard can be used as frontal or rear, constructed to ease the operator's functionality.

Item code: **20039-N5**

## 4. MFSPC-S “TRIDENT” LAND PLACARDS

Adapter for three 5.56 magazines to use with Item 20039-N5.

Item code: **20039-N5(556)**

Adapter for two 20 round 7.62 magazines to use with Item 20039-N5.

Item code: **20039-N5(762)**

Adapter for two .308 or .338 magazines to use with Item 20039-N5.

Item code: **20039-N5(338)**

### MFSPC-S LAND tactical MP-7 magazine placard

is designed to accommodate four MP-7 magazines. (It accommodates 20 and 40 round magazines). Placard can be used as frontal or rear, constructed to ease the operator's functionality.

Item code: **20039-N8**

### MFSPC-S LAND tactical UMP / MP-5 magazine placard

is designed to accommodate four UMP / MP-5 magazines. Placard can be used as frontal or rear, constructed to ease the operator's functionality.

Item code: **20039-N16**

## 5. MFSPC-S “TRIDENT” LAND AMMUNITION POUCHES

### MFSPC-S LAND Single Pistol Mag

**Pouch** holds your pistol magazine securely with the top flap open or closed. Constructed of 500D CORDURA® nylon, the pistol pouch features a hook and loop on the front and back to secure the flap open or closed and attaches to any MOLLE/PALS style gear.

FEATURES:

- Holds standard one 9mm magazines for GLOCK or equivalent style magazines.

Item code: **30110**

**MFSPC-S LAND Double Pistol Mag Pouch** holds your pistol magazines securely with the top flap open or closed. Constructed of 500D CORDURA® nylon, the pistol pouch features a hook and loop on the front and back to secure the flap open or closed and attaches to any MOLLE/PALS style gear.

FEATURES:

- Holds standard two 9mm magazines for GLOCK or equivalent style magazines.

Item code: **30107**

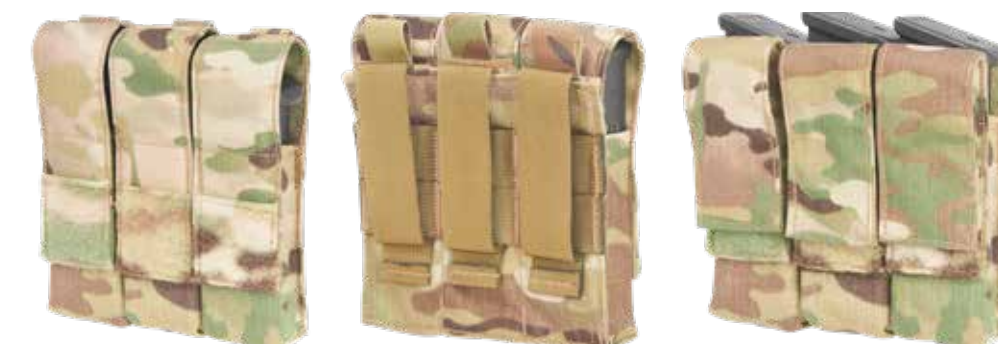

**MFSPC-S LAND Triple Pistol Mag Pouch** holds your pistol magazines securely with the top flap open or closed. Constructed of 500D CORDURA® nylon, the pistol pouch features a hook and loop on the front and back to secure the flap open or closed and attaches to any MOLLE/PALS style gear.

FEATURES:

- Holds standard three 9mm magazines for GLOCK or equivalent style magazines.

Item code: **30106**

## 5. MFSPC-S “TRIDENT” LAND AMMUNITION POUCHES

### MFSPC-S LAND Single Open UMP/MP-5 Mag Pouch

will hold one 30-round 9mm magazine. The open-top design includes a bungee retention strap to remove your magazine quietly.

#### FEATURES:

- Holds standard 30-round 9mm UMP, MP-5, or equivalent weapon system magazines.
- Bungee secured for fast & silent access.

Item code: **30139**

### MFSPC-S LAND Double Open UMP/MP-5 Mag Pouch

will hold two 30-round 9mm magazine. The open-top design includes a bungee retention strap to remove your magazine quietly.

#### FEATURES:

- Holds two standard 30-round 9mm UMP, MP-5, or equivalent weapon system magazines.
- Bungee secured for fast & silent access.

Item code: **30140**

## 5. MFSPC-S “TRIDENT” LAND AMMUNITION POUCHES

### MFSPC-S LAND Single Open 5.56 Mag Pouch

will hold one 30-round M16 style 5.56 or AK style magazine. The open-top design includes a bungee retention strap to allow quiet removal of your magazine. The pouch also features modular webbing on the front, allowing the user to stack other modular pouches on top of it.

#### FEATURES:

- Holds standard 30-round M-4 magazine and Magpul PMAG or equivalent style magazines or AK magazines.
- 3 rows of MOLLE webbing for maximum versatility.
- Bungee secured for fast & silent access.

Item code: **30088**

### MFSPC-S LAND Single 5.56 Mag Pouch

will hold one 30-round M16 style 5.56 magazine or AK style magazine. The closed-top design includes a rubber retention strap that prevents magazine wobbling and allows quiet magazine removal.

#### FEATURES:

- Holds standard 30-round M-4 Mag and Magpul PMAG, AK or equivalent style magazines.
- Closing flap secured by VELCRO® for fast & silent access.

Item code: **30083**

### MFSPC-S LAND Double 5.56 Mag Pouch

will hold two 30-round M16 style 5.56 magazine or AK style magazines. The closed-top design includes a rubber retention strap that prevents magazine wobbling and allows quiet magazine removal.

#### FEATURES:

- Holds standard 30-round M-4 Mags and Magpul PMAG, AK or equivalent style magazines.
- Closing flap secured by VELCRO® for fast & silent access.

Item code: **30133**

## 5. MFSPC-S “TRIDENT” LAND AMMUNITION POUCHES

**MFSPC-S Universal Single 5.56 Mag Pouch** will hold one 30-round M16 style 5.56 or AK style magazine. The open-top design includes a bungee retention strap and removable closing flap to allow quiet magazine removal. The pouch also features modular webbing on the front and back, allowing the user to stack other modular pouches on top of it.

### FEATURES:

- Holds standard 30-round M-4 Mag and Magpul PMAG, AK style magazines, or equivalent style magazines.
- 3 rows of MOLLE webbing for maximum versatility.
- Bungee secured for fast & silent access.
- Removable closing flap.

Item code: **30071**

**MFSPC-S LAND Single 7.62 Short Mag Pouch** securely holds one twenty-round 7.62 (.308) magazine. Ideal for SCAR Heavy, M-14, HK 417, FN FAL, G-36 (standard magazine) or other 20-round 7.62 rifle magazines.

### FEATURES:

- Closed or open-top design with an adjustable bungee retention strap allows for quiet removal of your magazine and modular webbing on the front and back to allow for stacking other pouches. The closing flap is attachable/detachable on the VELCRO®.

Item code: **30027**

## 5. MFSPC-S “TRIDENT” LAND AMMUNITION POUCHES

The **MFSPC-S LAND Single Open G-36 Mag Pouch** for MFSPC-S will hold one 30-round G-36 (latest version) M16 style 5.56 or AK style magazine. The open-top design includes a bungee retention strap to allow quiet removal of your magazine. The pouch also features modular webbing on the front, allowing the user to stack other modular pouches on top of it.

### FEATURES:

- Holds standard 30-round G-36; M-4 magazine and Magpul PMAG or equivalent style magazines or AK magazines.
- Three rows of MOLLE webbing for maximum versatility.
- Bungee secured for fast & silent access.
- Ultra-lightweight made from 500D CORDURA®.

Made in Latvia

Item code: **30001**

The **MFSPC-S LAND modular Single G-36 Mag Pouch** for MFSPC-S will hold one 30-round G-36 (latest version) M16 style 5.56 or AK style magazine. Design includes a flap closing option (removable) bungee retention strap to allow quiet removal of your magazine. The pouch also features modular webbing on the front, allowing the user to stack other modular pouches on top of it.

### FEATURES:

- Holds standard 30-round G-36; M-4 magazine and Magpul PMAG or equivalent style magazines or AK magazines.
- Three rows of MOLLE webbing for maximum versatility.
- Closing flap attachable/removable as operator prefers
- Bungee secured for fast & silent access.
- Ultra-lightweight made from 500D CORDURA®.

Made in Latvia

Item code: **30128**

## 5. MFSPC-S “TRIDENT” LAND AMMUNITION POUCHES

### MFSPC-S LAND Single .338 Mag Pouch

will hold one 10-round AX sniper rifle magazine. The closed-top design allows the magazine to sit safely in the pouch during the sniper mission.

#### FEATURES:

- Holds standard 10-round .338 AX magazine or equivalent style magazines for different sniper rifles.
- Closing flap secured by VELCRO® for fast & silent access.
- Also, available for .308 AX sniper rifle magazines, the pouch has the same design.
- Designed to fit any armor system with MOLLE webbing.

Item code: **30002**

**MFSPC-S LAND Horizontal Mag Pouch** is designed to be compatible with different armor plate carriers and chest rigs. It quickly attaches via VELCRO® to the front or rear of the plate carrier - simply slot it in between the VELCRO® strips inside the plate pocket. The Mag Pouch accommodates 5.56mm NATO magazines and AK-style magazines. It is ideal for operators who require a slim profile but need to carry extra mags. Excellent in the prone position. A horizontal magazine pouch also can be adapted as a vertical double magazine pouch.

Item code: **30136**

## 5. MFSPC-S “TRIDENT” LAND AMMUNITION POUCHES

### MFSPC-S LAND Adjustable 40 mm Pouch, Single

is a super small, streamlined pouch designed to facilitate rapid reloads - something essential when ranging for follow-on rounds. The top security flap can be adjusted for small HE rounds or increased for long illumination. This pouch is lighter and more secure than competitive single 40 mm pouches, occupying less space on your kit. The MOLLE system allows the pouch to be attached to MOLLE or a standard belt.

#### FEATURES:

- Adjustable Straps for Long or Short Rounds
- Wear with MOLLE or on Belt
- Flap can be Stowed for Rapid Reloads

Item code: **30072**

### MFSPC-S LAND ultra-lightweight grenade pouch

designed to hold a fragmentation grenade. A plastic buckle and VELCRO® secure the grenade inside the pouch. Reliable, secure, and highly effective.

Item code: **30032**

## 6. GENERAL VIEW OF MFSPC-S “TRIDENT” MARITIME

## 7. MFSPC-S “TRIDENT” MARITIME COMPONENTS

**MFSPC-S MARITIME SOF standard FRONT plate bag** with quick-release cable (cutaway). Standard plate bag custom fit for different plate sizes and is designed to work with standard ballistic inserts (hard and soft). It can be configured with weight compensation system or used separately with 2-band or 3-band cummerbunds for a simple plate carrier configuration. The plate bag features a VELCRO® loop panel with MOLLE that allows to attach additional equipment.

Item code: **20039-PP-M**

**MFSPC-S MARITIME standard REAR plate bag** is custom fit for all MFSPC-S front plate bags and available for different plate sizes and designed to work with standard ballistic (hard and soft) inserts. It can be configured with weight compensation system or used separately with 2-band or 3-band cummerbunds for a simple plate carrier configuration. The plate bag features a VELCRO® loop panel with MOLLE that allows to attach additional equipment.

Item code: **20039-MP-M**

**MFSPC-S adapter** for military applications where a rear armor plate is unnecessary, such as full equipment patrolling or Military Free Fall operations. It allows the operator to have more options with MFSPC-S for different missions.

Item code: **20039-MP-N9**

**MFSPC-S weight compensation system, shoulder harness (Angel wings).**

Item code: **60014**

## 7. MFSPC-S “TRIDENT” MARITIME COMPONENTS

**MFSPC-S adjustable shoulder straps** are designed for the MFSPC-S SOF version front plate bag. Straps come with a quick-release cable (cutaway system). Shoulder straps have G-hooks built in as an emergency strap attachment system to the plate carrier.

We recommend using straps in conjunction with ANGEL WINGS (item code: 60014).

Item code: **20039-PL-AIR**

**MFSPC-S classic shoulder pads** for shoulder straps. Shoulder pads are designed to improve operators' comfort and accommodate cables and water system. Main material: 100% polyamide mesh.

Item code: **20039-PM**

## 8. MFSPC-S “TRIDENT” MARITIME PLACARDS

### MFSPC-S MARITIME tactical M-4 magazine placard

is designed to accommodate three M-4 magazines (accommodates any 5.56 style magazines and AK style magazines). Placard can be used as frontal or rear, constructed to ease the operator's functionality.

Item code: **20039-N14**

**MFSPC-S tactical M-4 Combat Diver Maritime magazine placard** is designed to accommodate four M-4 magazines (accommodates any 5.56, AK style magazines). Placard can be used as frontal or rear, constructed to ease the operator's functionality and ability to have good ammunition load under combat close circle rebreather.

Item code: **20039-N20**

**MFSPC-S MARITIME tactical 7.62 magazine placard** is designed to accommodate two 7.62 magazines and one pistol magazine. Placard can be used as frontal or rear, constructed to ease the operator's functionality.

Item code: **20039-N6**

## 8. MFSPC-S “TRIDENT” MARITIME PLACARDS

### MFSPC-S MARITIME tactical 7.62 magazine placard

is designed to accommodate three 7.62 magazines. Placard can be used as frontal or rear, constructed to ease the operator's functionality.

Item code: **20039-N15**

**MFSPC-S MARITIME tactical MP-7 magazine placard** is designed to accommodate four MP-7 magazines. It accommodates 20 and 40 round magazines. Placard can be used as frontal or rear, constructed to ease the operator's functionality.

Item code: **20039-N28**

**MFSPC-S MARITIME tactical UMP / MP-5 magazine placard** is designed to accommodate four UMP / MP-5 magazines. Placard can be used as frontal or rear, constructed to ease the operator's functionality.

Item code: **20039-N26**

## 9. MFSPC-S “TRIDENT” MARITIME AMMUNITION POUCHES

### MFSPC-S MARITIME Single Mag Pouch

holds your pistol magazine securely with the top flap open or closed. Constructed of mesh material, the pistol pouch features a hook and loop on the front and back to secure the flap open or closed and attaches to any MOLLE/PALS style gear.

FEATURES:

Holds standard one 9mm magazine for GLOCK or equivalent style magazines.

Item code: **30130**

### MFSPC-S MARITIME Double Mag Pouch

holds your pistol magazines securely with the top flap open or closed. Constructed of mesh material, the pistol pouch features a hook and loop on the front and back to secure the flap open or closed and attaches to any MOLLE/PALS style gear.

FEATURES:

Holds standard two 9mm magazines for GLOCK or equivalent style magazines.

Item code: **30132**

**MFSPC-S MARITIME Triple Mag Pouch** holds your pistol magazines securely with the top flap open or closed. Constructed of mesh material, the pistol pouch features a hook and loop on the front and back to secure the flap open or closed and attaches to any MOLLE/PALS style gear.

FEATURES:

Holds standard three 9mm magazines for GLOCK or equivalent style magazines.

Item code: **30129**

## 9. MFSPC-S “TRIDENT” MARITIME AMMUNITION POUCHES

The **MFSPC-S Maritime Single Open UMP/MP-5 Mag Pouch** will hold one 30-round 9mm magazine. The open-top design includes a bungee retention strap to remove your magazine quietly.

### FEATURES:

- Holds standard 30-round 9mm UMP, MP-5, or equivalent weapon system magazines.
- Bungee secured for fast & silent access.

Item code: **30143**

The **MFSPC-S Maritime Double Open UMP/MP-5 Mag Pouch** will hold two 30-round 9mm magazine. The open-top design includes a bungee retention strap to remove your magazine quietly.

### FEATURES:

- Holds two standard 30-round 9mm UMP, MP-5, or equivalent weapon system magazines.
- Bungee secured for fast & silent access.

Item code: **30144**

## 9. MFSPC-S “TRIDENT” MARITIME AMMUNITION POUCHES

### MFSPC-S MARITIME Single Open 5.56 Mag Pouch

will hold one 30-round M16 style 5.56 and AK magazine. The open-top design includes a bungee retention strap to allow quiet removal of your magazine. The pouch also features modular webbing on the front, allowing the user to stack other modular pouches on top of it.

### FEATURES:

- Holds standard 30-round M-4 magazine and Magpul PMAG, AK or equivalent style magazines.
- 3 rows of MOLLE webbing for maximum versatility.
- Bungee secured for fast & silent access.

Item code: **30134**

### MFSPC-S MARITIME Single 5.56 Mag Pouch

will hold one 30-round M16 style 5.56 and AK magazine. The closed-top design includes a rubber retention strap that prevents magazine wobbling and allows quiet removal.

### FEATURES:

- Holds standard 30-round M-4 Mag and Magpul PMAG, AK or equivalent style magazines.
- Closing flap secured by VELCRO® for fast & silent access.

Item code: **30135**

### MFSPC-S MARITIME Double 5.56 Mag Pouch

will hold two 30-round M16 style 5.56 and AK magazines. The closed-top design includes a rubber retention strap that prevents magazine wobbling and allows quiet removal.

- Holds two standard 30-round M-4 Magazines and Magpul PMAG, AK or equivalent style magazines.
- Closing flap secured by VELCRO® for fast & silent access.

Item code: **30122**

## 9. MFSPC-S “TRIDENT” MARITIME AMMUNITION POUCHES

### MFSPC-S MARITIME Single 7.62 Short Mag Pouch

securely holds one 20-round 7.62 (.308) magazine. Ideal for SCAR Heavy, M-14, HK 417, FN FAL, G-36 (standard magazine) or most other 20-round 7.62 rifle magazines. Closed or open-top design with an adjustable bungee retention strap allows for quiet removal of your magazine and modular webbing on the front and back to allow for stacking other pouches. The closing flap is attachable/detachable on the VELCRO®.

Item code: **30127**

**MFSPC-S MARITIME Single .338 Mag Pouch** will hold one 10-round .338 AX sniper rifle magazine. The closed-top design allows the magazine to sit safely in the pouch during sniper missions.

#### FEATURES:

- Holds standard 10-round AX magazine or equivalent style magazines for different sniper rifles.
- Closing flap secured by VELCRO® for fast & silent access.
- Also, available for .308 AX sniper rifle magazines, the pouch has the same design.
- Designed to fit any armor system with MOLLE webbing.

Item code: **30102**

**MFSPC-S MARITIME Horizontal Mag Pouch** is designed to be compatible with different armor plate carriers and chest rigs. It quickly attaches via VELCRO® to the front or rear of the plate carrier - simply slot it in between the VELCRO® strips inside the plate pocket. The Mag Pouch accommodates 5.56mm NATO magazines and AK-style magazines. It is ideal for operators who require a slim profile but need to carry extra mags. Excellent in the prone position. A horizontal magazine pouch also can be adapted as a vertical double magazine pouch.

Item code: **30137**

## 9. MFSPC-S “TRIDENT” MARITIME AMMUNITION POUCHES

### MFSPC-S MARITIME Adjustable 40 mm Pouch, Single

is a super small, streamlined pouch designed to facilitate rapid reloads - something essential when ranging for follow-on rounds. The top security flap can be adjusted for small HE rounds or increased for long illumination. This pouch is lighter and more secure than competitive single 40 mm pouches, occupying less space on your kit. The MOLLE system allows the pouch to be attached to MOLLE or a standard belt.

#### FEATURES:

- Adjustable flap for long or short rounds.
- Attach with MOLLE or wear on the belt.
- Flap can be stowed for rapid reloads.

Item code: **30123**

### MFSPC-S MARITIME ultra-lightweight grenade pouch

is designed to hold a fragmentation grenade. A plastic buckle and VELCRO® secure the grenade inside the pouch. Reliable, secure, and highly effective.

Item code: **30138**

## 10. MFSPC-S “TRIDENT” COMBAT BELTS

**MFSPC-S belt system** - lightweight, low-profile belt system that comfortably carries your critical gear and holds up your pants. It's much more versatile than typical combat belts and much less bulky than a regular load carriage belt. It's configurable in multiple ways to facilitate your unique needs. It helps you move some gear off your vest and onto your hips for less back fatigue.

The VELCRO® face of the INNER BELT allows OUTER BELTS to quickly attach/detach without removing the pants belt. The belt is made to accept combat belts' inner layer, which allows the use of this belt over winter gear.

There are three ways to configure the belt to suit any operational need: Keep the INNER layer attached to the COMBAT BELT for cold weather conditions or use it without a low-profile belt. The second option is to use it with a low-profile belt for maximum comfort. It provides a very stable and integrated setup. Use the INNER BELT as a separate low-profile pants belt for quick donning.

Sizes: M, L, XL, XXL  
Item code: **10014**

**MFSPC-S combat belt** - lightweight, mid-ride combat belt system that comfortably carries your critical gear and holds up your pants. It's much more versatile than typical combat belts and much less bulky than a regular load carriage belt. It's configurable in multiple ways to facilitate your unique needs. It helps you move some gear off your vest and onto your hips for less back fatigue. Mid-ride belt accepts soft ballistic inserts. This combat belt is part of the MFSPC-S weight compensation system.

There are two ways to configure the belt to suit any operational need. The first configuration is to use it as a regular combat belt. The second configuration is putting the weight compensation systems adapter on, which lets you connect the belt to the plate carrier. It provides a very stable and integrated setup.

Sizes: M, L, XL, XXL  
Item code: **10006**

## 10. MFSPC-S “TRIDENT” COMBAT BELTS

### MFSPC-S weight compensation systems components.

Item code: **10006-SDS**

**MFSPC-S vertical climbing/repelling system** is compatible with all MFSPC-S belts. This system allows the operator to adapt his combat belt for such military applications as air assault or urban operations not to lose the combat belt's SOP.

MFSPC-S combat belts are produced with D-RING COBRA PRO STYLE 18kN aluminum buckle, which allows using MFSPC-S belts for repelling and climbing. Leg straps come in one adjustable size.

Item code: **10007**

## 10. MFSPC-S “TRIDENT” COMBAT BELTS

### MFSPC-S SOF “SHIELD” Plate Carrier

The **MFSPC-S SOF “SHIELD”** is a mission-configurable plate carrier **designed and manufactured by LTD LUMINA GRUP** to support both **covert** and **overt** operations. Engineered for military, special operations, and law enforcement personnel, it combines a low-profile design with full mission adaptability, providing exceptional mobility, comfort, and scalability across a wide range of operational environments.

The carrier features an ergonomic design with fully adjustable shoulder straps and waist system, allowing rapid sizing, quick donning, and emergency doffing while maintaining a secure fit during dynamic movement.

Optional cummerbunds are available in **1-band, 2-band, 3-band**, or **elastic** configurations, enabling the operator to tailor the carrier to specific mission requirements.

The **MFSPC-S SOF “SHIELD”** is fully compatible with over **90% of the MFSPCS “TRIDENT” modular pouch system** and accepts all standard **MFSPCS ballistic components**. Dedicated plate bags are individually sized for each ballistic plate dimension and accommodate both **hard armor plates** and **soft ballistic inserts**. The carrier can be configured as a lightweight standalone plate carrier or equipped with the **MFSPCS Weight Compensation System** for enhanced load distribution during extended operations.

Front and rear plate bags feature **VELCRO® loop fields with integrated vertical MOLLE/PALS webbing**, allowing rapid attachment or replacement of placards, magazine panels, MOLLE front panels, and mission-specific load-bearing equipment.

The **SOF Covert/Overt** configuration incorporates reinforced, low-profile **sandwich-style shoulder straps**, providing increased durability while maintaining comfort and minimizing bulk under additional equipment.

## 10. MFSPC-S “TRIDENT” COMBAT BELTS

To meet specific operational or environmental requirements, the **MFSPC-S SOF “SHIELD”** can also be **manufactured with mesh plate bags upon customer request**. This configuration improves ventilation, reduces overall weight, and enhances comfort during prolonged operations in hot climates or high-intensity missions.

### FEATURES

- Designed and manufactured by **LTD LUMINA GRUP**.
- Designed for both **covert** and **overt** operational roles.
- Lightweight, ergonomic construction for enhanced mobility and operator comfort.
- Rapid adjustment system for quick donning, doffing, and individual fit.
- Optional **1-, 2-, 3-band**, or **elastic cummerbunds**.
- Compatible with over **90% of MFSPCS “TRIDENT” modular pouch systems**.
- Accepts all standard **MFSPCS ballistic components**.
- Individually sized plate bags compatible with both **hard armor plates** and **soft armor inserts**.
- Compatible with the **MFSPCS Weight Compensation System**.
- Integrated **VELCRO®** and **MOLLE/PALS platform** for modular placards and mission-specific equipment.
- Reinforced low-profile sandwich-style shoulder straps.
- **Optional mesh construction available upon customer request** for improved airflow, reduced weight, and enhanced thermal comfort.

### SPECIFICATIONS

**Main Material:** 500D CORDURA®

**Optional Material:** High-strength mesh construction (available upon request)

**Manufactured by:** LTD LUMINA GRUP

**Materials:** Manufactured using premium materials sourced from the USA.

Item Code: **20037**

## 11. MFSPC-S “TRIDENT” SPECIAL PURPOSE POUCHES

**MFSPC-S 100-Round SAW Bag** carries ammo for the M249. The pouch fits a 100-round SAW drum or 120 rounds of loosely linked ammo. You can close the pouch with a flap and secure it with webbing and a plastic buckle. The bag makes for a great pouch to carry mission essential and general purposes equipment.

### FEATURES:

- Fits 100 Rounds of 5.56mm Ammo.
- Can hold 120 rounds of loose linked 5.56mm or similarly sized ammo.
- Buckle Closure to secure the contents inside.
- MOLLE compatible.

Item code: **30014**

**MFSPC-S 200-Round SAW Bag** carries ammo for the M249. The pouch fits a 200-round SAW drum or 220 rounds of loosely linked ammo. You can close the pouch with a flap and secure it with webbing and a plastic buckle. The bag is a great pocket to carry mission essentials and general purposes equipment.

### FEATURES:

- Fits 200 Rounds of 5.56mm Ammo.
- Can hold 220 rounds of loose linked 5.56mm ammo or similarly sized ammo.
- Buckle Closure to secure the contents inside.
- MOLLE compatible.

Item code: **30065**

### MFSPC-S 100-Round 7.62 x 51 mm Ammunition Bag

carries ammo for the Minimi 7.62 or equivalent weapon systems. The pouch fits a 100-round 7.62-linked ammo. You can close the pouch with a flap and secure it with webbing and a plastic buckle. The bag is an excellent pocket for carrying different mission essentials and general purposes equipment.

### FEATURES:

- Fits 100 Rounds of 7.62 Ammo, or similar size ammo.
- Buckle Closure and VELCRO® to secure the contents inside.
- The pouch has a top opening slot access to the inside material.
- When the bag is empty, it is foldable to minimize overall volume.
- MOLLE is compatible.

Item code: **30125**

## 11. MFSPC-S “TRIDENT” SPECIAL PURPOSE POUCHES

**MFSPC-S Gasmask pouch** all in one, vertical MOLLE mounting. The interior is designed to prevent material from flaking onto your gas mask when exposed to wet, harsh conditions. It will fit most gas masks. You can close the pouch with a flap and secure it with VELCRO, webbing, and a plastic buckle. The bag is an excellent pocket for carrying different mission essentials and general-purpose equipment. The Gasmask pouch attaches to a MOLLE vest carrier, combat belt or any MOLLE compatible gear.

### FEATURES:

- Holds Gasmask
- Double safety system
- MOLLE compatible
- Available leg drop panel to adopt for direct action applications
- Fully adjustable

Item code: **30043**

**MFSPC-S NVG pouch** is designed to accommodate NVG goggles like PVS-15; 31 and equivalent NVG. The pouch can be used for other mission essential equipment; the pouch has built-in shock protection. The pouch is close by VELCRO® and elastic webbing with a plastic buckle.

### FEATURES:

- Shock protection with extra protection padding.
- Double mesh bottom to drain out moisture and to let dirt extract out of the pouch.
- Double closing VELCRO® and elastic webbing with buckle.

Item code: **30112**

## 11. MFSPC-S “TRIDENT” SPECIAL PURPOSE POUCHES

### MFSPC-S 19-Round Shotgun Reload Pouch.

This compact and lightweight tactical shotgun ammo holder reloads pouch can hold up to 19 12-gauge shotgun shells and is well-made, durable, and features a foldable quick-access design. It is quickly open to reveal all shotgun shells of your favorite tactical shotgun ammunition. It attaches to a MOLLE vest carrier, combat belt, shotgun case, scabbard, or any MOLLE compatible gear. The pouch has PALS straps on the back panel, which allows attaching the pouch to the MOLLE webbing fast and easily.

#### FEATURES:

- Holds 19, 12-gauge gun shells.
- Quick access to shells.
- Double safety system.
- MOLLE compatible.

- Available leg drop panel to adopt for direct action applications.
- Fully adjustable.

Item code: **30077**

**MFSPC-S 40mm Belt** holds 12 rounds of 40mm or 37mm ammunition. It's easy to fasten around your waist or slung over your shoulder for rapid access to ammo. It's as easy to keep in a vehicle or on a seatback. Rounds are held in place by elastic loops and secured by a hook and loop flap. This belt will work with HEDP, rubber bullets, illumination, or other tube-fired 40mm or 37mm rounds.

Item code: **10004**

## 11. MFSPC-S “TRIDENT” SPECIAL PURPOSE POUCHES

### MFSPC-S Fold Up Dump Pouch

is a uniquely designed & slightly tapered dump pouch that keeps mags upright after being dropped inside so that you can re-access half-spent mags faster. The pouch can be worn directly on a belt or laced through your MOLLE to transition the pouch between mission-specific kit configurations.

#### FEATURES:

- Easy-pull cord designed so you only need one hand to close or open the pouch - it lets you always keep one hand on your weapon.
- Rolls away and secures with hook and loop for easy stowage when not in use.

- Two elastic pouches on the outside allow to carry chemlights, cuffs, or other mission essential small - sized equipment.

Item code: **30064**

## 12. MFSPC-S “TRIDENT” RADIO POUCHES

**MFSPC-S Radio Pouch** is designed to carry one MBITR-sized radio or two mags. This pouch attaches via VELCRO® hook-and-loop under the front flap of a vest. Stretches to fit contents—adjustable height. Left and right pouches included.

Item code: **30103**

**MFSPC-S Radio Pouch** for PRC-152 or MOTOROLA type radio. This pouch is designed to be opened and closed with only one hand so you can keep one hand on your weapon. Not only that, but it gives you unlimited access to the radio screen.

Item code: **30007**

**The MFSPC-S Radio Pouch** designed to carry one MPU-5/MBITR-sized radio. It attaches via MOLLE and has two safety options: a zipper and an elastic tie with two snap fasteners, which keep the radio securely in place.

Ultra-lightweight made from mesh material and 500D CORDURA®.

Item code: **30141**

## 12. MFSPC-S “TRIDENT” RADIO POUCHES

### MFSPC-S RADIO Rear Zip-On Load Panel

The **MFSPC-S RADIO Rear Zip-On Load Panel**, designed and manufactured by **LTD LUMINA GRUP**, is a lightweight, mission-configurable rear panel engineered to integrate seamlessly with the **MFSPC-S** plate carrier system. Designed for communications personnel, JTACs, special operations forces, and tactical teams, it provides secure carriage of mission-critical communication equipment while maintaining a streamlined profile.

The panel attaches directly to the rear plate bag using the integrated **zip-on interface**, providing rapid installation and removal without the need for additional adapters or hardware.

The main compartment securely accommodates a **tactical radio**, while dedicated internal pouches provide organized storage for **two spare radio batteries** and an additional **general-purpose utility pouch** for mission-essential equipment. A full-length integrated sleeve can be used to carry a **hydration bladder** or alternatively accommodate breaching tools, bolt cutters, or similar long equipment, increasing operational flexibility.

Constructed from **Multi Cam® mesh material** combined with **500D CORDURA®**, the panel offers an excellent balance of durability, reduced weight, and improved ventilation, making it suitable for extended missions in demanding environments.

#### FEATURES

- Designed and manufactured by **LTD LUMINA GRUP**.
- Compatible with the **MFSPC-S zip-on rear panel interface**.
- Rapid zip-on/zip-off installation and removal.
- Dedicated compartment for carrying a tactical radio.
- Integrated storage for **two spare radio batteries**.
- General-purpose utility pouch for mission-essential equipment.
- Full-length sleeve suitable for a **hydration bladder** or **breaching tools**.
- Lightweight construction optimized for extended operational use.
- Low-profile design that maintains operator mobility.
- Constructed from **Multi Cam® mesh** and **500D CORDURA®** for durability, reduced weight, and enhanced airflow.

#### SPECIFICATIONS

**Main Materials:** Multi Cam® mesh and 500D CORDURA®

**Manufactured by:** LTD LUMINA GRUP

Item Code: **40019**

# 13. MFSPC-S “TRIDENT” Quick Attach System

The MFSPC-S “TRIDENT” quick attach/detach panels allow to set up dedicated load-outs. The panels zip to the rear plate bag. Rig up different panels for different military applications and switch quickly between them. Panels let the operator configure load out for military applications, and panels zip to a rear plate bag.

**MFSPC-S MOLLE** rear zip on panel. Zip it to rear plate bag. Rig up with different pouches for different military applications. It features a built-in hydration/breaching tool pocket.

Item code: **40017**

**MFSPC-S MULTI USE/ADMIN** rear zip on panel. Zip it to rear plate bag. Rig up and have extra space to carry mission critical material for different military applications. It features a built-in hydration/breaching tool pocket.

Item code: **40022**

**MFSPC-S FLASH/40mm grenade rear zip on panel** specifically designed to carry flash bang grenades or 40mm grenades. Total amount of grandees 13 pcs. Zip it to rear plate bag. Rig up and have a full load of different grenades for different military applications. It features a built-in hydration/breaching tool pocket.

Item code: **40018**

# 13. MFSPC-S “TRIDENT” QUICK ATTACH SYSTEM

**MFSPC-S OPERATORS rear zip on panel.** Zip it to rear plate bag. Rig up and have extra space to carry six flash bang grenades or six 40mm grenades and mission critical material in two admin pouches for different military applications. It features a built-in hydration/breaching tool pocket.

Item code: **40021**

**MFSPC-S WARRIORS rear zip on load panel.** Zip it to rear plate bag. Rig up and have extra space to carry three M-4 magazines and seven flash bang grenades or seven 40mm grenades for different military applications. It features a built-in hydration/breaching tool pocket.

Item code: **40020**

**MFSPC-S ASSAULTERS rear zip on load panel.** Zip it to rear plate bag. Rig up and have extra space to carry three M-4 magazines and one admin pouch for different military applications. It features a built-in hydration/breaching tool pocket.

Item code: **40005**

**MFSPC-S's quick attach/detach system MOLLE adapter set.** Fits all conventional plate carriers to accommodate all MFSPC-S rear zip-on load panels and breaching tool ZIP panel (item code 40025).

Item code: **40014**

## 14. MFSPC-S “TRIDENT” INDIVIDUAL FIRST-AID POUCHES

**MFSPC-S Operator’s First-Aid Pouch** is designed to transport it in two ways. Regular MOLLE system, where you can attach it to the combat belt or plate carrier and Kangaroo-style attachment sleeve. Design allows the operator to access the kit using left or right hand. Elastic webbing provides space for extra tourniquet.

### FEATURES:

- Left/right side extractible.
- Two transporting sleeves - MOLLE style and Kangaroo style, sleeves are made from stretch material.
- Extra tourniquet space.
- MFSPC-S operator’s first-aid pouch accommodates 20% more medical materials than regular first-aid pouches.

Item code: **30060**

*NOTE: Does NOT Include any medical supplies*

**MFSPC-S Basic First-Aid Pouch** is our entry-level medical pouch. It is transported in a sleeve made from stretch material and secured with elastic straps and a plastic buckle. It includes full-length zippers giving full access to the contents of the pouch.

### FEATURES:

- Extracting in two ways, upwards and downwards.
- For temporary use can be attached from the outside and secured only by straps with a plastic buckle.
- Double zipper opening.

Item code: **30121**

*NOTE: Does NOT Include any medical supplies*

## 14. MFSPC-S “TRIDENT” INDIVIDUAL FIRST-AID POUCHES

**MFSPC-S Small First-Aid Pouch** is our covert style medical pouch. It is transported on two available platforms (belt and MOLLE) secured with elastic straps and a plastic buckle. It includes full-length zippers giving full access to the contents of the pouch.

### FEATURES:

- Extracting outboards from the operator.
- Double zipper opening.

Item code: **30080**

*NOTE: Does NOT Include any medical supplies*

## 15. MFSPC-S “TRIDENT” GENERAL PURPOSE POUCHES

### MFSPC-S Small Utility Pouch

with zip opening at the top. The outside of the pouch is covered with MOLLE/PALS compatible webbing. Genuine YKK large double open zipper with cord for easy opening in gloved hands.

Item code: **30115**

### MFSPC-S Medium Utility Pouch

with zip opening at the top. The outside of the pouch is covered with MOLLE/PALS compatible webbing. Genuine YKK large double open zipper with cord for easy opening in gloved hands.

Item code: **30109**

### MFSPC-S Large Utility Pouch

with zip opening at the top. The outside of the pouch is covered with MOLLE/PALS compatible webbing. Genuine YKK large double open zipper with cord for easy opening in gloved hands.

Item code: **30021**

## 15. MFSPC-S “TRIDENT” GENERAL PURPOSE POUCHES

**MFSPC-S Horizontal Utility Pouch** is lightweight with zip opening at the top. The outside of the pouch is equipped with two chemlight or battery (AA, 123, AAA) stowing loops. It can hold various items - a true general-purpose pouch. Genuine YKK large double open zipper with cord for easy opening in gloved hands.

Item code: **30028**

### MFSPC-S Kangaroo Style Abdominal Pouch

is fully compatible with most armor plate carriers available on the market today. The design is a space saver on MOLLE plate carriers and/or chest rigs. The Kangaroo Pouch is designed to be mounted on the front. The diagonal side-cut version allows this pouch to be fitted without restriction while getting the most capacity out of that area. Includes three rows of MOLLE/PALS for adding additional pouches and are also covered with VELCRO® for adding IFF patches/flashers. The pouch has three separate pockets. All three pockets have an opening/closing with a zipper.

Item code: **30101**

## 15. MFSPC-S “TRIDENT” GENERAL PURPOSE POUCHES

### MFSPC-S XL Pouch

The **MFSPC-S XL Pouch** is a versatile, all-in-one utility pouch featuring vertical **MOLLE mounting** for seamless integration with tactical gear. Its secure, high-capacity interior specifically designed to prevent contents from falling out, even in dynamic or rugged environments.

This pouch is capable of carrying a wide range of mission-critical items—including **most standard gas masks**—and is ideal for use during military transport operations (APCs, boats, vehicles, aircraft, etc.). It offers reliable storage for both **mission essentials** and **general-purpose equipment**.

The pouch is closed with a protective flap secured by **VELCRO®** and two durable plastic buckles, providing a double layer of retention to keep contents safe and secure in the field.

Designed for modular versatility, the **MFSPC-S XL Pouch** easily attaches to **MOLLE vests, combat belts, or any MOLLE-compatible platform**.

#### KEY FEATURES:

- Fits most **gas masks**
- **Double safety closure** (VELCRO + buckle system)
- **MOLLE compatible**
- Internal **mesh pocket** for small items
- **External MOLLE** webbing for additional attachments
- Integrated **elastic cinch cord** for quick access and retention

**Main Material:** 500D CORDURA®

Item Code: **30011**

## 15. MFSPC-S “TRIDENT” GENERAL PURPOSE POUCHES

### MFSPC-S XXL Pouch

The **MFSPC-S XXL Pouch** is a high capacity, all-in-one utility pouch with vertical **MOLLE mounting**, designed for efficient and secure gear storage during tactical missions. Its interior is engineered to keep contents safely enclosed, minimizing the risk of items falling out—even during intense movement or transport.

Ideal for **military transportation** (APCs, boats, vehicles, aircraft, etc.), this pouch is built to accommodate a wide variety of mission-essential gear and general-purpose equipment.

The pouch closed using a protective flap secured with **VELCRO®** and **two 20mm plastic buckles**, offering a reliable **double safety closure system** for maximum retention and quick access. The **bottom section** of the pouch made from **mesh material**, providing ventilation, drainage, and visibility for stored items.

Designed for modular adaptability, the MFSPC-S XXL Pouch easily attaches to **any MOLLE-compatible platform**—including tactical vests, belts, or packs.

#### KEY FEATURES:

- **Double safety system:** VELCRO® + 20mm buckle closure
- **MOLLE compatible**
- **Breathable mesh bottom** for ventilation and drainage

**Main Material:** 500D CORDURA®

Item Code: **30149**

## 16. MFSPC-S “TRIDENT” WATER SYSTEMS

**MFSPC-S Water System** is a multi-day use pack for all military applications. Designed to sit comfortably and efficiently on the back and shoulders. The reinforced and ventilated straps and height adjustable chest strap make the fit snug and comfortable. Coupled with the MOLLE system, that allows attaching it to the plate carrier and using it as a back panel for extra military equipment missions essential.

MFSPC-S water system reservoir technology, the weight shifts across the back, lowering the center of gravity while in use, increasing stability and load distribution. External fill port with an ergonomic handle for filling on the go.

Item code: **40007**

**Universal water bottle pouch** is designed to allow it to be attached to most modular MOLLE platforms. Quick-release buckle with retention webbing.

### FEATURES:

- Rear MOLLE attachments
- Quick release buckle
- Waterproof lining
- Vented mesh base
- Two external mesh pockets

Item code: **30042**  
*NOTE: Water bottle is not included.*

**MFSPC-S water bottle pouch** designed to carry one 0.5l water bottle or other necessary mission essential equipment. It is designed to be attached to the most modular MOLLE platforms. Stretches to fit contents.

Item code: **30008**

## 17. MFSPC-S “TRIDENT” SPECIAL PURPOSE COMPONENTS

### MFSPC-S Side Ballistic Panel Pouch

holds one 15cm x 15cm stand alone or ICW plate or one low-vis soft armor backer. Stretch material allows fitting contents. Left and right pouches included.

Item code: **30124**

Item code: **30111**

Item code: **30114**

Item code: **30126**

### MFSPC-S Side Ballistic Panel Pouch

holds one 15cm x 20cm stand alone or ICW set or one low-vis a soft armor backer. Stretch material allows fitting contents. Left and right pouches included.

## 17. MFSPC-S “TRIDENT” SPECIAL PURPOSE COMPONENTS

**MFSPC-S Shoulder Protection Armor Set** can be integrated with nearly any tactical vest for added IIIA protection and provides seamless ballistic coverage around the entire upper arm.

Sizes: M; L; XL/XXL

Item code: **60002**

*NOTE: Ballistic elements not included.*

**MFSPC-S Ballistic Collar System** is explicitly designed to provide extra IIIA protection and is integrated into the weight distribution system. It is compatible with most military and commercial body armor vests.

Sizes: one size

Item code: **60004**

*NOTE: Ballistic elements not included.*

**MFSPC-S Groin Protector** adds more soft armor coverage and extra space for MOLLE pouches. It is compatible with most military and commercial body armor vests.

Sizes: one size

Item code: **60029**

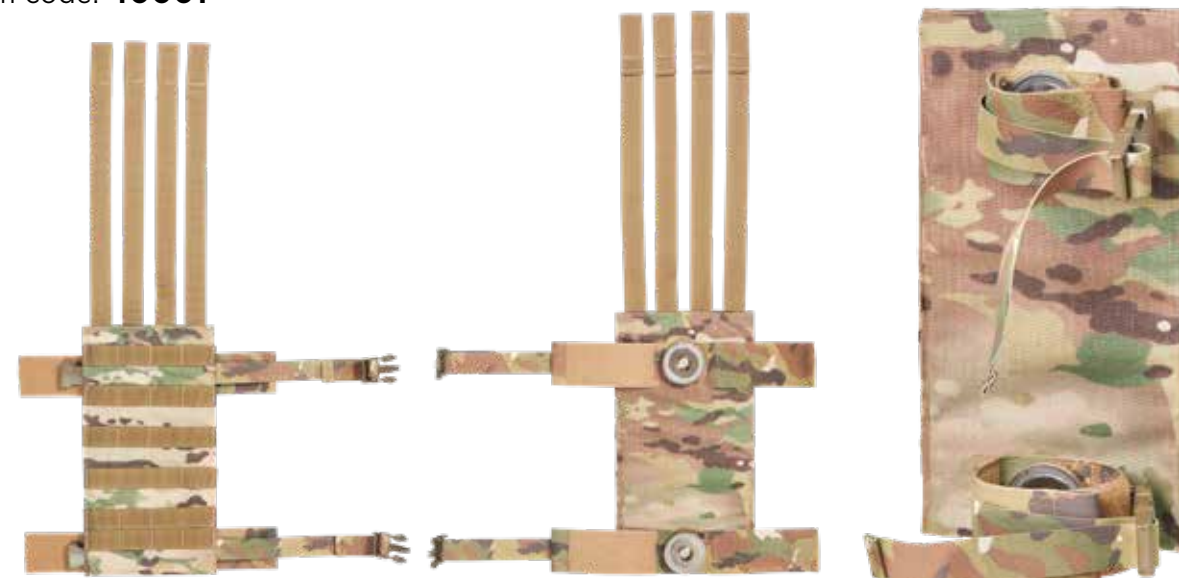

*NOTE: Ballistic elements not included.*

## 17. MFSPC-S “TRIDENT” BREACHING TOOL ADAPTERS

**MFSPC-S breaching tool panel** is designed to accommodate metal and non-metal breaching tools (crowbar, sledgehammer, and other tools). The panel provides more comfort for operators during combat operations. Breaching tools are secured by magnets and straps with quick release buckles. Magnet clips keep metal tools in place even if straps are open allowing the operator to have more operational freedom and the ability to move in the objective. The panel fits any plate carrier on the market.

Item code: **40001**

**MFSPC-S breaching tool ZIP panel** is designed to accommodate metal and non-metal breaching tools (crowbar, sledgehammer, and other tools). The panel provides more comfort for operators during combat operations. Breaching tools are secured by magnets and strap with quick release buckle. Magnet clips keep metal tools in place even if straps are open allowing the operator to have more operational freedom and the ability to move in the objective. The panel fits any plate carrier on the market.

Item code: **40025**

**MFSPC-S breaching tool pouch** is designed to accommodate metal and non-metal breaching tools (crowbar, sledgehammer, and other tools). The pouch provides more comfort for operators during combat operations. Breaching tools are secured by magnets and strap with quick release buckle. Magnet clips keep metal tools in place even if straps are open allowing the operator to have more operational freedom and the ability to move in the objective. The pouch fits any plate carrier on the market.

Item code: **40024**

## 18. MFSPC-S “TRIDENT” ACCESSORIES

**MFSPC-S Ultra-Light adoptable patrolling harness.** Designed to fit all sizes and with integrated shoulder weight suspenders, the harness is highly comfortable for long patrolling. Easy adjustable/adaptable to get the right size and fit.

Item code: **10012**

### MFSPC-S GPS wristband

designed to accommodate GARMIN 401, 601, 701, 801, 901. Wristband provides operators better comfort and improves operability to don and undo GPS. Wristbands are made for all types of military applications and Military Free Fall.

Item code: **60026**

**MFSPC-S Knife Pouch** will hold a medium-sized folding knife, flashlight, or extra pistol mag. VELCRO® secures the pouch flap to keep the blade safely in the pouch. The pouch attaches to regular waist belt through loop. The pouch is available with a MOLLE attachment, too.

Item code: **30120**

## 19. MFSPC-S “TRIDENT” ACCESSORIES

### This MFSPC-S tactical combo notebook valet

designed with versatility and portability in mind, making it perfect for busy professionals. The professional folder organizer features reliable zipper opening and closing, adding an extra layer of security safely encapsulate your important documents, notes, and items in the valet.

This notebook valet features a carefully considered design and offers a variety of storage options. It includes multiple compartments, card slots, and pen loops to hold your documents, pens, business cards, smartphones, and more. This thoughtfully designed interior layout maximizes storage space, keeping your belongings neatly separated and easily accessible.

This valet made from premium 500D CORDURA® fabric to withstand the rigors of daily use and stay in great shape over time. It offers excellent durability and abrasion resistance, ensuring long-lasting performance. Whether you travel frequently or are in a professional environment where durability is required.

Item code: **30146**

**MFSPC-S helmet cover** is designed to fit either the Ops-Core FAST Ballistic Helmet or the Ops-Core FAST Maritime Helmet. A stretch webbing fit ensures that it remains in place during free fall or rotary-wing operations. Critical areas of the cover are manufactured to allow access to night vision mounts and rail accessories. The loop is positioned in other locations for attachment of IFF capabilities. Perfect for changing your helmet's pattern, reserving its finish, and dampening noise during impact.

#### FEATURES:

- Fits Ops-Core FAST Ballistic and Maritime Helmets.
- Allows access to night vision mounts and rail accessories.
- External battery pack.
- NVG cable routing allows stove NVG cable under the cover.
- NVG connection port protection pockets while NVG is not in use.
- Loop for attachment of IFF capabilities
- Camouflage loops to break helmet silhouette.

Sizes: S/M; L; XL/XXL  
Item code: **60011**

## 19. MFSPC-S “TRIDENT” ACCESSORIES

**MFSPC-S Skull Crusher** provides hands-free use with many devices. It is a one-size-fits-all device that has an incredible amount of adjustment. Skull Crusher provides plenty of airflow during extended wear. It is compatible with all base plate mounts available on the market, with pre-cut holes for shrouds such as WILCOX, NOROTOS, and standard-issue base plates.

### FEATURES:

- Made from mesh material to maximize ventilation.
- VELCRO® webbing to adjust the depth and width.
- The rear part has a built-in external battery pack pocket.
- Three VELCRO® pads are available to attach call signs/ID patches.
- Cord loops to add camouflage elements if needed.
- NVG cable routing channel on the right side gives you a slick, clean, and ergonomic look.
- A weight compensation system is integrated into the Skull Crushers harness, which allows the operator to operate comfortably without fatigue.
- Fully adjustable, one size fits all Chinstraps. No flapping straps, and no tape needed.
- Skull Crusher is made for all military applications and Military Free Fall.

Item code: **60021**

## 19. MFSPC-S “TRIDENT” ACCESSORIES

**MFSPC-S concealed carry waist bag** fits all compact, medium, and large pistols. It fits the requirements of most people who work in the military and law enforcement. It is also suitable for outdoor shooting, hunting, hiking, and cycling. The elastic webbing fixes the pistol and magazines inside the bag. The waist strap is adjustable, according to operator's needs. It is comfortable to have your hands free when the gun is not in use. Waist bag provides more space to store personal items such as wallet and other goods.

Item code: **30084**

## 19. MFSPC-S “TRIDENT” ACCESSORIES

### MFSPC-S Over-the-Shoulder Concealed Carry Gun Bag

The **MFSPC-S** is a compact, over-the-shoulder **concealed carry gun bag** designed for discreet portability and rapid access. It accommodates all compact, medium, and large-frame pistols, making it an ideal choice for military personnel, law enforcement officers, and security professionals. It is equally well suited for civilian use in activities such as outdoor shooting, hunting, hiking, and cycling.

An **adjustable holster adapter** securely positions the pistol in the desired orientation, while **elastic retainer bands** keep up to two magazines firmly in place—without interfering with a quick draw. The holster setup supports two carry modes: over-the-shoulder or mounted on a belt. For additional stability and comfort, the bag includes a **leg strap**, ensuring secure wear even during active movement.

The over-the-shoulder design also offers extra storage capacity for essential gear such as **first aid supplies**, tools, and **personal items** like wallets and keys—all within easy reach. Constructed from **durable 500D CORDURA®**, the MFSPC-S built to withstand demanding conditions while providing reliable, and low-profile firearm transport.

Item Code: **30147**

## 19. MFSPC-S “TRIDENT” ACCESSORIES

**MFSPC-S Silencer pouch** designed to hold 5.56 cal., .308 cal. and .338 cal. weapon systems silencers.

Item code: **30108**

### MFSPC-S operator’s foldable mat

is designed to support the operator’s basic needs as a sleeping mat and, in an emergency, can be used as a medical stretcher in two ways—a soft four to six-man stretcher, and inserting two rigid material poles through side tubes can be used as a two or four-person stretcher. Lightweight pad that folds away to save space and make it easy to carry. The mat is padded with 10mm foam to keep you comfortable at night and can also be used as a camping mat to keep you off the damp ground.

- Lightweight sleeping mat.
- Ideal for shooting, camping, and hiking.
- Dimensions: 144cm x 53cm x 1cm.
- Folds into 35cm x 53cm x 6cm.

Item code: **60006**

**MFSPC-S Rifle Sling** is a two-point, adjustable, variable sling. The sling was designed with ease of use, comfort, durability, and simplicity in mind.

Item code: **10040**

## 19. MFSPC-S "TRIDENT" ACCESSORIES

### MFSPC-S INTRUDER Ruck

The **MFSPC-S INTRUDER Ruck**, designed and manufactured by **LTD LUMINA GRUP**, is a mission-driven assault and sustainment rucksack developed to meet the demanding requirements of **long-range reconnaissance, special operations, airborne forces, and extended patrol missions**. Built around the proven **ALICE** and **INTRUDER** frame platforms, it combines rugged durability with exceptional modularity and load-carrying capability in the harshest operational environments.

Designed in close cooperation with military operators, the **INTRUDER Ruck** incorporates mission-critical features that enhance operational effectiveness while maintaining maximum comfort under heavy loads. The pack is compatible with **ALICE** and **INTRUDER** frames and integrates seamlessly with the **H-Harness** load-bearing system.

A carefully engineered storage layout includes **three external utility compartments** and **two internal compartments**, providing rapid access and efficient organization of mission-essential equipment. The main compartment can be accessed directly through a dedicated front entry zipper, allowing the operator to retrieve equipment **without opening the top lid**, significantly reducing access time during operations.

The exterior features a full **MOLLE/PALS platform**, enabling complete mission customization with additional pouches, sustainment equipment, breaching tools, medical kits, and other operational gear. Reinforced stress points and high-wear areas ensure long service life under combat conditions. External compression straps and a horizontal stabilization strap secure the load and minimize pack movement during foot patrols, airborne insertions, or vehicle operations. Integrated routing channels support **hydration systems** and **communication cables**, allowing seamless integration with modern battlefield equipment.

The **MFSPC-S INTRUDER Ruck** is fully **Static Line** and **Military Free Fall (MFF)** jump capable, making it suitable for airborne and special operations missions where reliability and equipment retention are essential.

## 19. MFSPC-S "TRIDENT" ACCESSORIES

### FEATURES

- Designed and manufactured by **LTD LUMINA GRUP**.
- Compatible with **ALICE** and **INTRUDER** frames.
- Engineered for **long-range patrols, reconnaissance, airborne, and special operations**.
- Optimized for integration with the **H-Harness** load-bearing system.
- Three external utility compartments and two internal storage compartments.
- Direct front-access zipper allows rapid access to the main compartment without opening the top flap.
- Full **MOLLE/PALS** webbing for mission-specific configuration and modular equipment attachment.
- Reinforced construction at critical load-bearing and high-wear points.
- External compression straps and horizontal stabilization strap for superior load control.
- Integrated routing channels for hydration systems and communication equipment.
- Fully compatible with **Static Line** and **Military Free Fall (MFF)** airborne operations.
- Designed to provide maximum durability, organization, and mobility during extended missions.

## 19. MFSPC-S “TRIDENT” ACCESSORIES

### The MFSPC-S SAVIOR Tactical Gear Combat Trauma Medical Bag

developed through extensive market research and a detailed analysis of the current Ukrainian conflict. It is hand-built from the ground up, specifically tailored to meet the operational needs of combat medics.

The bag features a compartmentalized interior, including a fully removable airway panel. This design ensures rapid access to life-saving tools most frequently required in combat scenarios.

The **MFSPC-S SAVIOR** includes a single zippered opening for the main compartment, which contains four fully removable zipper-closure pouches mounted on the back wall. The airway panel attaches to the front wall using hook-and-loop fasteners and can be easily removed. Additionally, a separate bottom compartment allows for extra medical supplies, expanding the bag’s overall storage capacity.

The exterior is equipped with **PALS webbing**, allowing for the attachment of additional pouches—such as IV bags—and other essential tools. Recognizing the need for versatile carry options, we designed the bag with removable backpack straps. If required, we can provide custom adapters based on client specifications to allow for secure vehicle mounting.

When configuring the bag, users can opt to use it with or without the shoulder straps. All straps attached using G-hooks, and the bag comes with both a sternum strap and a waist strap for added stability and comfort.

As with all **LUMINA GROUP** products, we use only premium materials: **500 Denier Cordura, heavy-duty webbing**, and **high-quality hook-and-loop fasteners**—ensuring durability and reliability in the most demanding environments.

Item code: **40006**

## 19. MFSPC-S “TRIDENT” ACCESSORIES

### The MFSPC-S OBSERVER Tactical Gear Combat Drone Transport Bag

developed through extensive market research and a detailed analysis of the current Ukrainian conflict. It is hand-built from the ground up, specifically designed to meet the operational needs of combat drone operators.

The bag features a compartmentalized, user-configurable interior with fully removable and adjustable dividers. This modular layout ensures rapid access to essential drone (FPV/UIV) equipment and tools most frequently needed in combat scenarios.

The **MFSPC-S OBSERVER** has a single zippered opening to the main compartment, which includes multiple adjustable and removable interior walls securely accommodate one or more drones. The interior fully lined with hook-and-loop (VELCRO®) material, allowing users to customize the layout as needed. The front panel features two integrated zippered pockets, providing additional storage space for essential spare parts such as propellers.

The exterior covered with **PALS webbing**, allowing for the attachment of extra pouches and accessories. Understanding the need for flexible transport options, we’ve designed the bag with removable backpack straps. Upon request, we can also provide custom adapters tailored to client specifications for secure vehicle mounting.

Users can configure the bag with or without shoulder straps, all of which attached using **G-hooks** for quick detachment.

As with all **LUMINA GROUP** products, the MFSPC-S OBSERVER is built using premium materials: **500 Denier Cordura, heavy-duty webbing**, and **high-quality hook-and-loop fasteners**, ensuring durability and performance in the most demanding operational environments.

Item code: **40016**

## 19. MFSPC-S “TRIDENT” ACCESSORIES

### Lumina Group MFSPC-S Sniper Shooting / Drag Bag

The Lumina Group Sniper Shooting / Drag Bag is a versatile, mission-ready sniper drag bag designed to provide secure rifle transport, equipment organization, and enhanced field functionality.

#### FEATURES

- **Multiple carry options** – Can be carried as a **backpack** using the original padded shoulder straps. Transported as a **standard rifle case** or used as a **drag bag** by pulling it on a sling during tactical movement.
- **Integrated shooting mat** – Fully opens to serve as a stable and comfortable shooting mat, providing protection for both the operator and equipment in the field.
- **Ample storage** – Includes dedicated compartments for a **cleaning rod, GPS**, and multiple **zippered utility pockets** for magazines, tools, and other essential accessories.
- **MOLLE-compatible system** – Equipped with a **MOLLE/PALS webbing system**, allowing the operator to attach additional pouches, medical kits, magazine carriers, utility pouches, and other mission-specific equipment to customize the load-out as required.
- **Secure transport** – A **full-length wraparound zipper** combined with durable **buckle closures** keeps the rifle securely enclosed during transport and helps meet legal transportation requirements in many jurisdictions.
- **Durable construction** – Built from rugged, field-proven materials to withstand demanding military, law enforcement, and precision shooting applications.

## 19. MFSPC-S “TRIDENT” ACCESSORIES

The **Lumina Group MFSPC-S** combines the functionality of a rifle case, drag bag, and shooting mat into a single adaptable platform, making it an excellent choice for professional operators and precision shooters who require reliable protection, modularity, and mission flexibility.
